## CANADIAN SYMBOLS AT PARLIAMENT

### Quebec – Madonna Lily

Use your imagination and the clues given in the description below to colour the page.

The Madonna lily looks like the heraldic fleur-de-lys on Quebec's flag. It is the symbol of French culture in France and Quebec. The Madonna lily was Quebec's flower for 36 years but it does not grow naturally in Quebec. In 1999, Quebec chose a new flower that does grow naturally in the province: the blue flag iris.
