CANADIAN SYMBOLS AT PARLIAMENT

Yukon – Fireweed

Use your imagination and the clues given in the description below to colour the page.

The fireweed is a tall plant with many small dark pink flowers. It grows in a lot of places. It can grow in clearings, or next to roads and rivers. It is called “fireweed” because it is one of the first plants to grow after a fire. The Yukon chose it in 1957 as its official flower.
