

Blue Angels

Translated by Nigel Spencer

Ether
ether-nity
Blue-inked night
where
blue with suffering
angel-wings remain dipped

Ether
ether-nity
Padded silence
of unconsciousness
where the words avenging
stifled cries remain asleep

Beaten
struck
tortured
prisoners of the unspeakable
in secrets still inviolable

Agony of light
in pale yellow aura
centred in spasms of flesh
blackened with blows
reddened with blood

Frater
Fraternity
blue with fear
that closes eyes
They have seen nothing all those liars
They even speak of clemency

Mater
Maternity
Blue-inked night
before birth
where already trembles vengeance
in the descendants

Never more be silent
Never more be finished
in the youthful schoolbook
where an angel-sticker wings
and joyful ignorance sings
